

mass effect a night of collectives

We cordially invite you to share your collective ideas and effects in the community. A night to share your projects and learn what else is happening with other collectives. If nothing else, it will be a night of art and mysticism.

6-7:30 – Collective discussion

7:30-8 – Poetry reading

8-9:30 – Art ensemble

9:30-1:00 – Food and dance

We have a lot of resources among our collectives, not to mention brilliant minds who want to share their resources with their community. If you have the capacities, but are unsure how to help, or if you need help with your collective, then this night will give you that opportunity to entertain possibilities. You'll just have to be there to witness what's happening.

Free – 2141 Broadway Boulevard, Oakland – January 11th
